In re the Reexamination of:

U.S. Patent 6,467,541

Issued: October 22, 2002

Inventor: Edward A. Wells

Issued on Application S.N. 09/630,255

Filed: August 1, 2000

For: PLUNGER LIFT METHOD AND APPARATUS

Supplemental Invention Disclosure Statement

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

MGM Well Service, Inc. is aware of the following patents and publications:

1. Brown U.S. Patent 2,555,112
2. Knox U.S. Patent 2,699,121;
3. Knox U.S. Patent 2,762,309;
4. Spaulding U.S. Patent 2,757,614;
5. Knox U.S. Patent 3,012,513;
6. Roach U.S. Patent 3,329,211;
7. Bosley U.S. Patent 6,705,404.

Copies of the above patents are attached.

Claims 23 and 24 in this case, added in the amendment filed November 2005, recites a two part piston in which the ball has a density less than about .25 pounds/cubic inch and has the capability of falling into a well at a slower rate than a comparable ball made of steel.

None of the above patents discloses a two part piston, much less one that has ball of such density nor having the capability of falling at a slower rate than a comparable ball made of steel. It is accordingly submitted that these patents do not affect the claims in this case.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "G. Turner Moller".
